THE FINAL SHOWDOWN

Shadow the Hedgehog was developed by Prof. Gerald Robotnik fifty years ago. Built to be the "ultimate life-form," Shadow was made possible thanks to the DNA of the evil space alien, Black Doom. Black Doom wanted Shadow to be his chief agent in conquering the world. Prof. Gerald hoped Shadow would save it instead.

Fast forward fifty years. Black Doom and his Black Arms aliens attacked the planet. Ultimately, Shadow fought against the invaders, destroyed Black Doom, and nearly wiped out the Black Arms. Deep in space, the last colony of Black Arms – led by Black Death – began plotting their revenge.

Now the final showdown is upon us. Black Death and Shadow battle to the bitter end in the heart of the New Black Comet. Meanwhile, Omega and Rouge race to find the nuclear warhead they brought to blow up the alien menace before it's used by the enemy...
